Project Title: Firebaugh Flood Risk Reduction Feasibility Study

Project Applicant: City of Firebaugh

Project Location (include county): Firebaugh, CA; Fresno County

Project Description:

The Firebaugh Flood Risk Reduction Project will occur in three areas. In Area 1, about 1.1 miles of new levee will be built. In Area 2, a severely eroded riverbank will be reinforced to protect adjacent City infrastructure from flooding by the San Joaquin River. In Area 3, a new levee will be built around the existing water treatment plant infrastructure to protect it against flooding. In addition, the existing levee might be enhanced at other areas such as the Firebaugh rodeo grounds, although those plans are contingent on the results of a flood modeling study. Final design of the flood protection measures will be determined following this feasibility analysis.

This is to advise that the City of Firebaugh has approved the above
 (Lead Agency or Responsible Agency)

described project on December 21, 2020 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
